Non-Sterile Cleanroom Gowning Procedure

**Step 1: Pre-entry**
- **A** Bouffant/Hair Net
  Be sure to contain all hair.
- **B** Shoe Covers
  Contain all laces and tassels.

**Step 2: Gowning**
- **A** Gowning Gloves
  Recommend for Class 100 and better.
- **B** Mask
  Worn over or under hood. Bend nosepiece first for a snug facial fit.
- **C** Hood
  Ensure snug fit and proper face/neck seal.

**Step 3**
- **A** Coverall
  Step into the coverall. Be sure sleeves and upper garment do not touch bench or floor. Tuck shoulder panels from hood inside coverall before zipping up.

**Step 4**
- **A** Boot Covers
  Usually discard after each change. If cross-over bench is used, transfer each foot to cleaner side of bench as boot is donned.

**Step 5**
- **A** Goggles
  Wear goggles/safety glasses when eye protection or additional particulate control is desired.

**Step 6**
- **A** Cleanroom Gloves (optional)
  Place hem of glove over cuff of sleeve. Put on over gowning gloves or remove gowning gloves and then put on cleanroom gloves.

Non-Sterile Cleanroom Gowning Removal Procedure

**Step 1: In order**
- **A** Gloves
  If two pairs of gloves are worn, remove top pair of gloves, then discard.
- **B** Goggles/Safety Glasses
  Remove and properly contain.
- **C** Boot Covers
  Usually discard after each change.

**Step 2**
- **A** Hood
  Hang in controlled environment.
- **B** Coverall
  If coverall is to be used again, either hang it in a controlled environment or prepare for storage.
- **C** Mask
  Remove and usually discard.

**Step 3**
- **A** Gloves
  It is recommended that gloves be discarded after each change.
- **B** Bouffant/Hair Net
  Usually discard after each change.
- **C** Shoe Covers
  Usually discard after each change.
Sterile Cleanroom Gowning Procedure

**Step 1: Pre-entry**

A. Bouffant/Hair Net  
Be sure to contain all hair.

B. Shoe Covers  
Contain all laces and tassels.

**Step 2: Gowning**

C. Wash hands using bactericidal soap and dry thoroughly.

D. First Sterile Gloves  
Follow aseptic technique by touching only the inside of gloves. Sanitize.

E. Sanitize gloves after donning each article, if required.

**Step 3**

A. Mask  
Adjust for a snug facial fit. May be worn over or under hood.

B. Hood  
Ensure snug fit and proper neck seal.

**Step 4**

A. Coverall  
Carefully remove coverall from package by holding the inside neck area.  
Unfold garment while preventing it from touching the floor, your clothes or bench.  
Please exercise care when inserting leg to ensure donning snaps (if used) release and foot clears elastic ankle prior to transferring weight.

B. Don using aseptic technique.

**Step 5**

A. Boot Covers  
Put boots (high-top shoe covers) on using aseptic technique.  
Tuck coverall legs into boots.  
The first boot donned can now be placed in the “clean” side of gowning area.

B. Don second boot and place the other foot in the “clean” side of the gowning area.

**Step 6**

A. Goggles  
Adjust for a snug facial fit.

B. Second Sterile Gloves  
Complete gowning steps by aseptically donning second pair of sterile gloves over the first pair, making sure the cuffs are securely over the sleeves.

C. Perform a final inspection in gowning room mirror prior to entry into the sterile cleanroom.

---

**Sterile Cleanroom Gowning Removal Procedure**

**Removal of Sterile Garments**

Enter gowning area from cleanroom and head directly to the “exit gown room” (preferred method).

If no “exit gown room” is available, go directly to the “non-clean” side, usually divided by a bench and/or line.

Remove items in reverse order of gowning procedure and discard.

A. Outer Gloves  
B. Goggles  
C. Boot Covers  
D. Coveralls  
E. Hood  
F. Mask  
G. Inner Gloves  
H. Bouffant/Hair Net  
I. Shoe Covers
